Serta adjustable base headboard

Updated January 17, 2022 The Ease 3.0 Adjustable Base is a power bed model offered by Tempur-Sealy, and it's the entry-level model of the three bases they offer. An adjustable base can increase the comfort in your bed by raising your head and legs to a more comfortable position. It can also help ease some medical conditions such as acid reflux, snoring, and arthritis. A power base also can help you to read in bed, use your laptop, or watch TV from a better angle. The Sealy Ease is a base that lifts both the head and foot portions individually. Plus, any mattress that can be used with an adjustable base can be put on the Sealy Ease. If you read on you'll find much more information about the benefits and features of this power base. The Sealy Ease Power Base - An Overview Independent head and foot control with a wireless remote Head raises up to 60 degrees from flat, legs raise up to 50 degrees Pre-programmed remote means no need to pair with base Smart Sync™ pairing system (for split King or Cal King configurations) Zero Standby Power System (
